

Lab 1: Introduction to ArcGIS

Shahreare Joy

January 20, 2025

1. Introduction

- The Philadelphia School District is interested in encouraging its students to bike to school and so the district wants to know what neighborhoods have its largest schools that are well-connected to the bike network. For this, I will map the neighborhoods that have both enrollments of more than 1,200 students and are also within 0.1 mile of the bike network.

2. Deliverables

- A) A list of the Philadelphia School District schools that have enrollment of no less than 1,200 students and are within 0.1 mile of the bike network:

Baldi, C. C. A.
Solis-Cohen, Solomon
Frankford High School
Frank, Anne
Central

- B) The total enrollment for these 5 schools is 7,264 students.

- C) A list of the neighborhoods that contain those 5 schools:

BUSTLETON
CASTOR GARDENS
LOGAN
NORTHWOOD

D) Map
